DISCLAIMER: These free to air channels are samples of the free-to-air (clear and un-encrypted) channels available on North American satellites today. Some of the channels may require a [dish bigger than 30"](#) and/or an [HH Motor](#). We don't claim or guarantee that these channels will remain free to air for any period of time. Some of these channels may go off the air at some point or become encrypted and new channels may show up. We are not affiliated with or resell programming from any of the channels above. The list above reflects what is available to our knowledge. One of the best pages to check all available satellite channels and their frequencies is www.lyngsat.com. See also <http://ftalist.com/channels.htm> for latest updates.
